TEL: 0208 271 8000

CONTACT: Tom Walker: Construction Manager

SCAFFOLD & HOISTS by Benchmark Scaffolding Limited

PROJECT OVERVIEW – KEY NOTES

- The £35 million project will play a key role in driving the Museum's strategic vision forward, enabling it to illustrate how Britain's relationship with the sea has fundamentally shaped histories, cultures, economies, and identities across the globe. It will transform the Museum's capacity to develop and engage with a new generation of audiences. The new exhibition spaces and accessible archives will change the way the Museum presents its collections and exhibition programme to its visitors, both from within the UK and internationally.
- The new wing features five key elements; a substantial new space for special exhibitions, an open archive centre, new learning spaces, a new south entrance, and new visitor facilities, including a restaurant, café and shop.
